

Worcester Locomotive Society

One Day Shed Visit

Manchester Area

28 April 1963

This report is in two parts, the first lists locomotives seen on shed or within its location, the second lists the total locomotives seen by class. The second part also acts as a reference with details of both home shed and where seen.

Part 1 - Sheds Visited

8B Warrington (Dallam)

Sub of 8B Warrington (Arpley)

9A Longsight (Manchester)

9B Stockport (Edgeley)

9E Trafford Park

Sub of 9E Glazebrook

9F Heaton Mersey

9G Gorton

Observations at Gorton (9G) include some interesting withdrawn locomotives sent to Gorton Works to be cut-up. I find the [RAILUK website](#) invaluable for checking withdrawal and disposal details, however their database is not 100% complete and some of their detail conflict with that published in Trains Illustrated/Modern Railways magazines and from these sightings is inaccurate. For example:

- Class J11 **64324** shown as withdrawn from Retford 36E on 23 September 1962 (but shown as withdrawn on 06 October 1962 in Modern Railways) and disposed of at Gorton Works on 31 May 1963.
- Class B1s **61239** and **61352** that are both shown as disposed of before the visit but were still very much intact.

For consistency I have used withdrawal dates in this report as shown in Trains Illustrated/Modern Railways magazines.

NOTE. This document contains 'Hyperlinks' they are coloured **Blue**, but are NOT underlined as per normal practice because converting the file to a PDF format distorts the underlined text. For example, Click on a shed in the list above takes you to that shed. Within the Shed you can Click on a locomotive Class and you will be taken to Part 2 that lists all the locomotives seen in that class on this visit.
